Multiple incompatible source licenses

Legal commercial definition (e.g. use by journals)

Unintentional restrictive

Avoids unintentional restrictions

# Repository specific regulations

# Repository specific regulations

Individuals submitting data to the international sequence databases managed collaboratively by DDBJ, EMBL, and GenBank should be aware of the following:

- The INSDC has a uniform policy of **free and unrestricted access** to all of the data records their databases contain. Scientists worldwide can access these records to plan experiments or publish any analysis or critique. Appropriate credit is given by citing the original submission, following the practices of scientists utilising published scientific literature.
- The INSDC will **not attach statements to records that restrict access to the data**, limit the use of the information in these records, or prohibit certain types of publications based on these records. Specifically, no use restrictions or licensing requirements will be included in any sequence data records, and no restrictions or licensing fees will be placed on the redistribution or use of the database by any party.

# Open Source Software licenses

# Material Transfer Agreements

Used for e.g. reagents, cell lines, plasmids, mice, ...

Can safeguard your commercial interest, while allowing others to use your material for research

Can ensure attribution

Can enforce remain in Public Domain

# Uniform Biological Material Transfer Agreement

**Benefits to the provider:**

**Materials only to be shared with non-profit organizations**

**Not use for a commercial purpose**

**Not use in human subjects or clinical trials**

**Attribution**

**Limited liability**

# Uniform Biological Material Transfer Agreement

**Benefits to the recipient:**

**Permission to use material for research or teaching purposes**

**Rights to all research results, modifications, and invention**

**Patent applications on modifications or inventions**

**Publishing without editorial comment or review by provider**

**Limited liability**
